LISTS PLANS FOR 1950 SPRING PLANTING

CONTRACTS COVER 853,000 CADASTRAL YOKES -- Szabad Szo, No 256, 4 Nov 49

Close to 853,000 cadastral yokes are covered by production contracts for spring planting in 1950.

About 86,000 cadastral yokes will be planted with improved seed; of this amount the state farms will cultivate about 60 percent, the cooperatives about 28 percent, and the individual peasants about 12 percent.

Industrial crops will be planted on 670,000 cadastral yokes, of which 56 percent will be sown in castor beans and 29 percent in hemp. Spiced pepper, cotton, and chicory also will be produced. The area sown in oil-flax production will increase by 35 percent.

Rough fodder will be produced on 100,000 cadastral yokes.

DEEP PLOWING BEGUN -- Szabad Szo, No 256, 4 Nov 49

About 15,000 cadastral yokes already have been deep-plowed in the vicinity of Debrecen. Plans call for 27,000 cadastral yokes to be plowed in this area, which represents 28 percent of the area to be deep-plowed in Hajdu County. To date, Hajdu County tractor stations have deep-plowed 10,207 cadastral yokes. Last week, ten tractor stations deep-plowed 8,063 cadastral yokes.

The five tractor stations of Gyor County completed deep plowing of 50 percent of that county's planned 188,000 cadastral yokes. It is hoped that the remaining 50 percent will be completed by 25 November 1949.

As of 29 October 1949, 8,800 cadastral yokes have been deep-plowed in Baranya County.
